## Graded Quiz: Test your Project understanding

LATEST SUBMISSION GRADE

100%

1. Why did we use adjusted close price instead of simple close price in this course?

1 / 1 point

- ☐ Because it is simpler and more straightforward
- ☒ Because it is a more accurate measure of closing price

✓ **Correct**  
Yes! It is more accurate as it takes into account stock splits, dividends, and new stock offerings!

- ☒ Because it takes into account stock splits, dividends, and new stock offerings

✓ **Correct**  
Yes! These things can drastically impact the closing price!

2. Why is candlestick chart superior to line chart for the purposes of reflecting on stock price changes?

1 / 1 point

- ☒ Because it takes into account four different measures of the stock price - high, low, open, and close price, whereas line chart does not.
- ☐ Actually, it does not. Line chart takes into account four different measures of the stock price - high, low, open, and close price, whereas candlestick chart does not.
- ☐ Actually, reflecting on just one piece of information is better than giving four different points of price, and that is what makes line chart better.

✓ **Correct**  
Exactly!

3. Which tool did we use in this project in order to get the stock price data?

1 / 1 point

- ☒ Yahoo Finance
- ☐ Marketwatch
- ☐ Nasdaq

✓ **Correct**  
Exactly!
