Module 4 Quiz

LATEST SUBMISSION GRADE

1. What is polymorphism?

100%

	When two things share properties in common.	
	When the definition of a class changes over time.	
	When multiple objects have distinct methods.	
	When one thing can have multiple forms.	
	✓ Correct	
	Correct!	
).	Which of the following statements is true?	1 / 1 point
	Inheritance and overriding are required for polymorphism.	
	Inheritance and overriding enable polymorphism.	
	Overriding is necessary for inheritance.	
	Inheritance is necessary for overriding.	

~	Correct
	Correct!

3.	If a type satisfies an interface, which of the following statements is true?	1 / 1 point			
	The type defines all methods specified in the interface.				
	The type defines all data specified in the interface.				
	The type defines a method specified in the interface.				
	The interface includes a definition of the type.				
	✓ Correct!				
	Correct				
4.	Which of the following statements is true?	1 / 1 point			
	A concrete type is always a dynamic type .				
	An interface always has a dynamic value .				
	An interface always has a dynamic type .				
	An interface type is the same as a dynamic type.				
	✓ Correct Correct!				

5. Which of the following statements is/are true?

1 / 1 point

- I. Interfaces can support abstraction by concealing differences between types.
- II. Type assertions can reveal differences between type satisfying an interface.
- iii. Type assertions return two values.

	○ I and II but NOT III.	
	○ II and III but NOT I.	
	○ I and III but NOT II.	
	I, II, and II	
	✓ Correct Correct!	
6.	What is a use for an empty interface?	1 / 1 point
	It allows two interfaces to be merged into one.	
	It allows a function to accept a variable number of arguments.	
	It can be used to allow a function to accept any type as a parameter.	
	An empty interface cannot exist in Go.	
	✓ Correct	
7.	After executing the expression below, what is the value of err if there is no error?	1 / 1 point
	f, err := os.Open("/harris/test.txt")	
	o nil	
	O 0	
	✓ Correct Correct!
